PondXpert MightyMite Pond Pump

Perfect for customers with smaller fish ponds needing to feed a filter system and/or waterfall.

- Handle 4mm solids
- Suitable for running 24/7
- Easy tool-free access
- Three hosetails included
- 10m power cable
- Three year guarantee.

Dimensions LWH: 203 x 214 x103 mm

Hose Outlet: 20, 25 and 32mm

No 'multi-language' box text. Designed to communicate to UK consumers. Increased space for additional consumer data.
Market leading consumer info. Now includes potential waterfall height and maximum suggested pond size.

Inspiring Updated Packaging. Now with Three Year Guarantee.

Simple 'tools free' access to pump inside strainer cage. Makes cleaning any blockages simple.

Three hosetails included in scope of delivery. Additional convenience as no need to cut a multistage hosetail down to maximise flow.

Perfect pumps for creating small waterfalls.

TripleAction

2 YEAR GUARANTEE

PondXpert TripleAction 'All-in-One' Pump

Submersible pond pumps with built-in filter and UVC. A complete submersible filtration system in one handy unit. Very easy to install. One electrical power cord powers all functions. Hides underwater leaving pond side clear of equipment. Expanded model range now means there is a solution to suit ponds sized 2000 to 9000 litres.

Each model packed with the **following features:**

- Large filtration area packed with filter media including foam and pods of biomedia.
- Reliable pond pump
- integrated UV unit to combat green water.
- Fountain Kit with a choice of three displays.
- T-Piece to allow directional flow to waterfall and fountain at the same time.
- Separate hosetail (12/20/25mm) to run without fountain.
- 'Tool Free' easy access for maintenance.
- Two Year Guarantee
- 10m power cable

PondXpert EcoFilter

UNIQUE NEW CONCEPT

Can also be be used with standard electric fountain pumps to reduce maintenance and prevent pumps blocking up

Entry-level compact submersible pond filter designed to be positioned UNDER the water surface. Perfect for keeping small ponds up to 4000 litres clear and healthy.

- Specifically designed to partner up with with Solar Pumps
- Solar Pumps tend to be lightweight and fragile - the filter foams grip the fountain stem keeping it upright and also stop solid particles blocking the impellor
- Using a Solar Pump allows "Wireless Ponds" to be created. Customers can create a garden pond with no need for outdoor electrics
- Filter can also be used with fountain pumps - foams prevent solid particles causing foam blockage
- Perfect budget solution for small/preformed ponds.

EnviroPond Kits

EcoFilter2000 + SolarShower300 + Gravel2Ltr + Adapter
EcoFilter2000 + SolarShower800 + Gravel2Ltr + Adapter

These kits are packed with everything a customer needs to create their own solar filtration system.

An EcoFilter 2000 Filter is matched with a quality SolarShower pump with battery back up.

Also included is a mains adapter to power up the pump during bad weather (making set safe for fish) and a 2 metre length of outlet hose for a small waterfall to be created instead of a fountain if required.

A 2 litre bag of Pond Gravel is also included as ballast for the filter.

Perfect filtration system partner for our Preformed Pond range (see pg 38)

PondXpert SpinClean Pressure Filters

Designed for customers wanting a bit more from their pond filter. With these filters internal cleaning rotors can be accessed externally meaning periodic cleaning of the filter is much easier.

When ready to clean the cleaning indicator pops up. The pump should be switched off and the cleaning dial set to 'waste'. Turning the handle agitates the sponge filters shedding dirt. The pump should be switched back on and the dirty water escapes. Once the water starts to run clear the pump should be switched off and the cleaning dial set back to 'pond'. The pump can be switched back on and clean water enjoyed!

Features:

- Quality features at a bargain price
- **No drips!** Tap on waste discharge valve (not 4500 or 6000 available separately)
- Clear hosetail so you can see if your water is dirty (not 4500 or 6000)
- UVC 'working' indicator
- Waste indicator pops up on lid when filter needs cleaning

See following page (16) for further details of internal components.

Note: SpinClean and SpinClean AUTO carry the same base-spec. So conveniently they have the same matching spare parts.

SpinClean & **UltraFlow** Filter Pump are a match made in heaven.

Extensive Range: 7 filter model choices plus 11 pumps
Allows flexibility depending on customer requirements
(eg, running a higher than average waterfall, high fish stocks)

Latest Technology: Feature-packed Eco Pump
Premium Filter with 'Easy Clean' maintenance

Filter Model	Recommended Pump**	Max Pond Vol*
4500	UltraFlow 3000 (also MightyMite 1500/2000/2500)	4500 Litres
6000	UltraFlow 3600 (MightyMite 3000)	6000 Litres
8000	UltraFlow 5300	8000 Litres
12000	UltraFlow 8000	12000 Litres
20000	UltraFlow 12000	20000 Litres
30000	UltraFlow 14000	30000 Litres
40000	UltraFlow 16000	40000 Litres

* Pond volumes based on low fish stocks in semi-shaded conditions.

** Recommended pump - best match listed first - others suitable depending on project.

SpinClean AUTO

SpinClean AUTO

PondXpert SpinClean AUTO

Probably the most convenient and easy way to keep a garden pond clean and healthy

Top features available at a sensible price.

- One touch motorised cleaning
- Specification as 'standard' SpinClean but manual 'turning handle' replaced with automatic motor.
- Easy to understand for consumers - Models match up with existing SpinClean range - the only difference is the method of powering the cleaning function.

pondXpert
SpinClean AUTO Filters

First came Box Filters. Then pressure filters arrived. Soon 'easy clean' pressure filters came. **NOW** we present motorised-cleaning pressure filters!

Reduced effort required during cleaning. Finger-touch operation

Procedure when it's time to clean:

1) Turn blue dial so arrow is facing waste outlet.

2) UV light turns colour red and the motor turns the cleaning paddle against the sponges.

3) After 3 minutes cleaning a beep indicates cleaning is finished.

Cleaning will typically take a minute or so (until waste water looks clear). The 3 minute warning siren is a feature to remind customer to switch off cleaning mechanism.

Note: Motors have proved highly durable but are available as a 'plug-in' spare part.

| Model	UVC	Volume Litres	Dimensions LxWxH (cm)	Foam Size	Foam Yellow	Foam Blue	Outlet/Inlet	Waste Outlet mm	Max Flow	Bio balls	Waste Tap?	BioBall Qty

PondXpert SpinClean Auto 50 PRO

NEW

Hand crafted extra large fibreglass chamber (volume 170 Ltrs).

Cut-away image shows internal foams and Floating Bed.
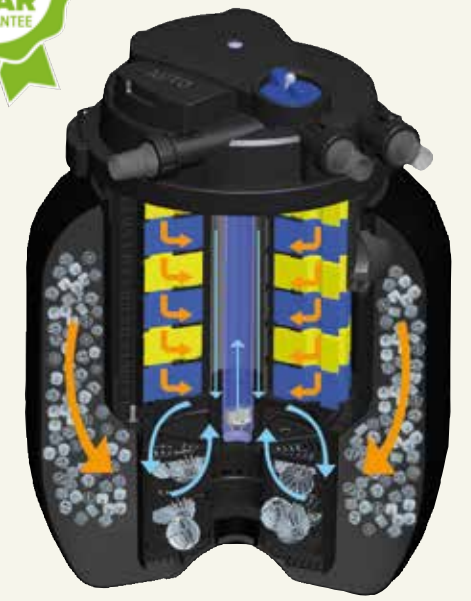

Solid particles from dirty water attach to foams. Water flow then forces biomedia to tumble around the extensive outer skin area.

This tumbling action encourages healthy new bacteria to grow. UVC zaps single cell algae to combat green water.

Floating Bed Technology

The filter ships with 35 litres of X2 biomedia included. For consumers with heavily-stocked fish ponds this media bay can be topped up to 60 litres.

biomedia design shown here not as supplied - see bottom of page.

SUPER BENEFITS

Fuss-free Plug-in and GO!

No need for rigid pipework or complicated fittings.

Maximum landscaping opportunities

Very small 'footprint' - compact design. As with all pressure filters unit can be buried/hidden lower than water outlet. Outlet water can be used to power a waterfall (max 3m).

Koi Compatible

Suitable for lightly stocked koi ponds up to 25,000 litres.

As a guide filter can handle fish managing to digest 150 to 200g of food per day.

Higher water volume capacity

Suitable for ornamental ponds up to 50,000 litres. Maximum recommended pump flow 16000lph.

Crystal Clear Water

Integrated 55 watt UV unit prevents green water.

Easy Maintenance

One-touch cleaning with motorised cleaning feature.

X2 Floating Biomedia 25L

16mm dia. x 10mm
Effectively generates healthy bacteria.

PondXpert FiltoBox - "Flow-Through" Pond Filters with UVC

Our research show that the majority of ornamental pond owners have switched to pressurised filters. However, there will always be strong demand for the traditional flow-through or 'box' filter.

Box filters typically have a larger cubic capacity of filtration material and thus are able to serve large amounts of water. It is also arguable that they are an easier type of filter to maintain too.

Extended Range

Doubling the quantity of models in the FiltoBox range means there is now a solution from 3000 - 12000 litres

NEW

FiltoBox 6000 Upgrade - Now includes 28cm Outlet Extension Kit

PondXpert Filtobox 6000 & 12000

Always popular - the traditional 'box' filter was the first filter type to sell in the UK.

Many customers still prefer this method of filtration. Filtobox has model variants to suit both small and larger ponds

- Top outlets mean filters can be buried up to 2/3 of height
- High quality construction
- Sludge drain for easy cleaning
- Easy Access to UVC.

Supplied with multi-stage inlet hosetail 25/32/38/40. Outlet pipe 50mm on 6000, 70mm on 12000.

Dimensions:
3000 - 37 x 24 x 34 cm (LWH)
4500 - 37 x 24 x 34 cm (LWH)
6000 - 38 x 28 x 38 cm (LWH)
12000 - 55 x 38 x 44 cm (LWH)

FiltoBox 3000 and 4500 UV Filters

Extended Outlet Option

FiltoBox 3000 & 4500 supplied with a generous 28cm (11') of 32mm outlet pipe and hoseclip. Outlet pipe is a standard diameter so easily extended if required.

Extended outlet facility to be rolled out to 12000 model in 2021.

FiltoBox 4500 - Showing Filter Media Contents

### 'Bio' FiltoBox without UV

- Integrated UVC
- Bio-Ball Bio Media
- Foam Filter Layer
- Japanese Matting Layer (4500 only)
- Multi-Hosetail Inlet 25/32/38mm (1" to 13/4")
- 32mm Outlet
- 28cm length outlet extension pipe with hoseclip.

To answer demand for budget entry-level pond filters the new smaller Filtoboxes are also available without UV Specification is exactly the same as shown opposite - just the UV not included.

ALL PONDXPERT POND EQUIPMENT has been carefully designed to complement each other. Each product solves a pondkeeping problem and some of the items are designed to work together in the same pond (The best illustration of this is our pumps and filters).

The following four pages desribe the PondXpert PondCreator Merchandising System

Designed to make pondXpert products easier to sell for the retailer and assisting the consumer with their purchasing decision.

As you will know - consumers have very different requirements. Some will want a simple replacement pump or filter - others will be looking to build a brand new pond.

With the PondCreator System the more the retail customer spends the better discount they get.

The customer walks away happy and satisfied with top value pond products. You, the retailer achieve a higher 'shopping basket spend'.

PondCreator Benefits

- No need to stock a pump, filter AND pump/filter sets. Reduce stockholding and free-up cash flow
- PondCreator provides an easy-reference guide to selling pond equipment. It is a first class training tool that helps boost confidence of sales staff when selling this technical product.
- Build an eye-catching display by taking advantage of POS opportunities
- Enjoy ready-made sale promotions proven to drive additional sales

Easy Reference Product Selector System

1) POS info explains what components are needed to build a particular size of pond.

2) Customer can quickly make the correct selections by matching up the colour coded swatch sysem printed on product boxes.

3) Customer guaranteed correct equipment selection.

Benefits

1) Allows customer to select correct equipment.

2) System can take sales while aquatics-trained staff are not available.

3) Can act as a great 'starting point' to a sales conversation. Chance to build on this information with higher featured or higher powered products.

4) Information takes a browsing customer from a 'cold prospect' to a 'warm prospect'.

PondCreator 6000
Pump & Filter Components

No need to stock a pump, a filter AND pump/filter sets.
Reduce stockholding and free-up cash flow.

Colour indicators printed onto *PondCreator* component boxes enable customer to select correctly matching options

PondCreator POS Available

No need to stock a pump, a filter AND pump/filter sets. Ask your PondXpert Sales Representative for further information.

Pond Maintenance

Two Metre Wide including PondCreator

Three Metre Wide including PondCreator

Four Metre Wide including PondCreator

PondXpert PondMaster

- Powerful 1400w motor, allowing 2.0m suction depth
- Large 30 Litre water chamber
- Automatic emptying. Chamber fills with dirty water then automatically switches off and empties - once empty it auto restarts and vacumming continues
- 4m suction hose
- 2m Discharge hose
- Can be used indoors as a wet/dry vacuum
- Fine mesh discharge bag can be placed over discharge outlet meaning filtered water can be returned to pond. Often water will be very dirty and can simply be discharged to flower beds (great fertiliser!)
- Comprehensive accessories including 3 heads, dustbag for indoor use, discharge bag and wheels for manoverability.

A FULL SET OF ACCESSORIES IS INCLUDED

PondMaster

Note: PondMaster Vac empties via force of gravity.

Discharge Basket must be positioned lower than outlet of PondMaster Vac
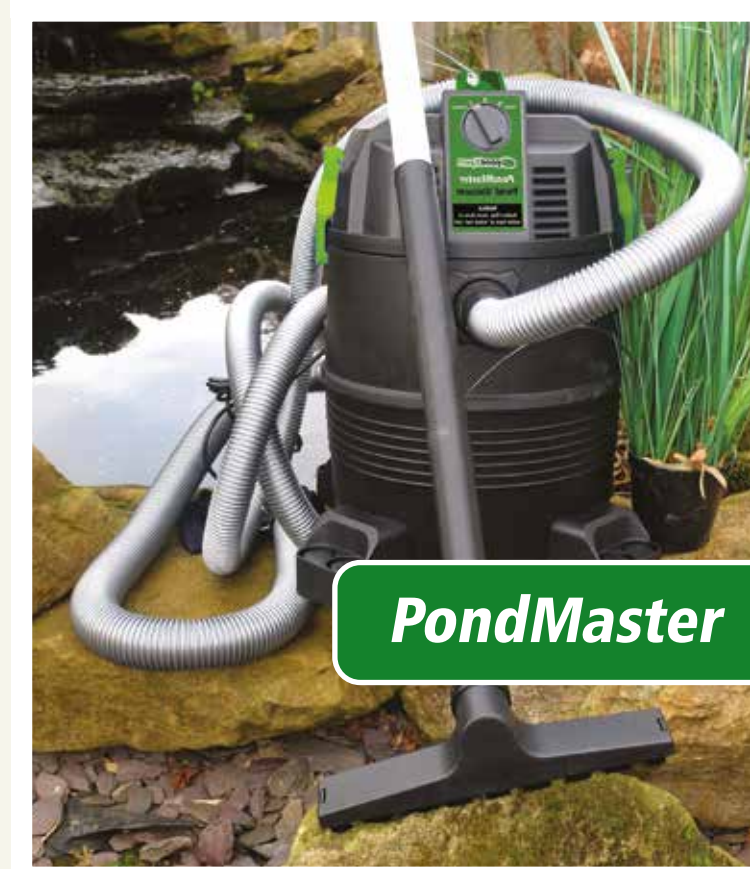

PondXpert Universal Vacuum Dirt Basket

After effectively sucking up unwanted dirt and debris from the pond the last thing a customer wants is to see it re-enter the pond!

The new collapsible dirt collector collects all the solids and allows clean water to return to the pond. Handy extension tube allows unit to be positioned up to 1m from the pond edge.

PondXpert AquaVac

A simple, easy to use hand operated pump device for removing silt from the bottom of the pond. Every pond accumulates a layer of silt and debris in the bottom of their pond no matter how hard you try to keep it clear. This can lead to problems with water clarity, pollution of the water etc and therefore should be removed frequently. This silt vac is the ideal solution - lightweight and not powered by electricity, it can be taken to the pond, used to hand pump out the silt and stored ready for next use.

EVERY POND KEEPER SHOULD HAVE ONE!

Features:
- Easy to use
- Telescopic - extends to 2 metres (6' 7")
- Also removes floating debris
- Complete with strainer bag
- Simple 'bicycle pump' action

Hand Operated

Koi Sock Net Heads

Specialist nets designed to scoop up fish safely and securely. The waterproof version ensures the highest level of safety for the fish. A porous net version is available as the addition of water to the weight of a big fish can make the net contents too heavy to move.

NEW   **NEW**

90cm long waterproof material plus 29cm long mesh part at the end. Flexible end part means it can be twisted round the wrist to cut off water flow when pinched.

PondXpert Pond Nets - Interchangeable Head System
THE RIGHT NET FOR EVERY JOB!

5 different heads and a choice of 3 different length poles/handles. Customer can choose the net-head and pole combination right for them and add additional net-heads as they need them.

F) Blanket Weed Brush Set

Choice of three handle/pole lengths

A) Pentagon 30cm

C) Algae Net

D) Sludge Net

B) Pentagon 40cm

Light n' Easy Skimmer Head

Clever design makes it so easy to sweep debris off the pond surface. The head affixes at a 45 degree angle meaning it can scoop debris with a 'golf club' type approach. Shape to glide through water easier less material on water surface.

Similar fine netting as used on existing 'Algae' net but shaped to glide through water easier with less material on water surface.

G) Light n' Easy Skimmer Head   **NEW**

PondXpert Pond Net Merchandiser

'NET A GREAT DEAL WITH PONDXPERT'

Metal POS stand with space to display Interchangeable head System Nets and Heavy Duty Nets.

Ask your Sales Representative for further details.

Pond Shelter

This new and innovative pyramid net keeps leaves, debris and predators out of the pond. The frame's telescoping design allows it to be placed on uneven ground. The mesh netting comes already pre-assembled on the frame, meaning that no assembly is required. Includes 30 ground stakes.

- Great for ponds up to 3.5m x 6m
- Protects without disturbing plants

WORKS GREAT FOR UNEVEN SURFACES!

PondXpert Pond Gel - Biodegradable Water Conditioners

PondXpert Pond Gel Balls

"POND GEL MAKES YOUR POND WELL"

Biodegradable balls water conditioning treatment. Simply pop them into your filter and they will slowly dissolve releasing millions of healthy bacteria and enzymes. Your pond will be brought gently back into balance as ammonia and nitrite issues are resolved. The balls also contain a clarifying agent to give the water a clear 'crisp' finish.

500ml of Gel Balls treats 15,000 Litres (3300 gallons)

PondXpert Liquid Treatment Range

250ml treats 5690 litres (1250 gallons)
1 Litre treats 22,750 Litres (5000 gallons)

PondXpert 'Throw 'n Go'

"BLOW YOUR POND PROBLEMS AWAY!"

This water conditioning treatment takes the form of 5 giant spheres. Each ball treats 5000 Litres (1100 gallons). It is a super sized version of pond gel as described above designed to be dropped straight into the pond.

Pack Treats 25,000 Litres (5500 gallons).

Dosage: Once per week

PondXpert 'Throw 'n Go' Barley Juice Balls

Concentrated extract of barley straw - a completely natural solution to the problems of algae, blanketweed and green water. Simply throw a ball into the pond where it will slowly dissolve and clean up the water.

Pack contains 5 giant gel spheres.
Each sphere contains enough active ingredient for 5000 litres (1100 gallons)
Dosage: Once per week.

Barley Straw Triple Pack

The classic solution to pond blanket weed, duckweed and algae. Treats 6750 litres for 8 weeks before replenishment is needed. 100% organic and safe for all ponds. Infused with lavender for increased effectiveness.

Promo-marked '3 for 2' packs **FREE** promo 'dump-bin' point-of-sale available

Barley Straw Flakes

Pack includes two pouches of barley 'flake' material. Unlike other barley straw products the pouches sink to the bottom of the pond. This improves the cosmetic appearance of the pond and increased water exposure increases efficiency. Pack treats 4500 litres (1000 gallons).

Barley Straw Midi Bale

Larger bales for big ponds. Each log treats 13,500 Litres (3000 gallons) for 8 weeks.

Water Feature Cleaner 300ml

Cleans and freshens any water feature. Water overnight. Dual action cleaner. Treats 120 Litres of water. Contains sodium salts. Do not use in fishponds or water containing livestock or plants.

PondXpert Tonic Salt

Tonic Salt contains pH buffers, minerals and acts as a preventative medicine to raise general disease resistance in your fish. It also helps to lower the stress levels of your fish. Easy to use, simply mix stated amount in a bucket of pond water and pour over your pond surface.

1 capful per 70 Gallons/265 litres
500 gramme pack treats 500 gallons (2250 litres)
1000 gramme pack treats 1000 gallons (4550 litres)

Standard Outdoor Electrical Cable

Premium Outdoor Electrical Cable

CONTROL YOUR EQUIPMENT PONDSIDE

Any lengths of exposed outdoor cable should be housed in a metal sheath to prevent accidental breakage.

PondXpert Outdoor Switchboxes

Outdoor switchboxes are essential pondkeeping kit. These sturdy switchboxes offer a number of outlet options and are easy to wire up. Max load 1080 watts, max load per outlet 360 watts. Inlet accepts standard outdoor cable.

PondXpert Electrical Cable Connector

Joins electrical cable with a watertight seal but has the benefit of being able to 'snap off' the connection. This means that outdoor items such as pond pumps can be easily disconnected and removed when necessary (eg, winter).

PondXpert Electrical Cable Joiner

Waterproof connector - perfect for extending power cable length.

PondXpert Waterfalls Classic

Realistic falls, includes a hidden hosetail adaptor.

Left Fall Dimension: 59 x 58 x 19 (LWH in cm)
Right Fall Dimension: 58 x 53 x 18 (LWH in cm)

Black Cascade

Low priced entry-level waterfall (no hosetail adaptor). Dimensions: 72 x 60 x 15 (LWD in cm)

Black Waterfall Foam

Perfect adhesive filler for use when building stone waterfalls. Simple aerosol for smaller jobs. Larger can for bigger tasks (applied via an applicator gun).

Waterproof sheeting to line ponds. We are a pond liner specialist and have sold over 100,000 liners to date. Sell pondXpert liners with confidence.

Flexiliner is our bestselling pond liner. Manufactured out of LDPE sandwiched between two coatings of UV resistant laminate. Fully guaranteed watertight for 30 years. The unique selling point of this item is that it is tearproof - if the liner gets punctured the hole will not 'run' as can occur with all other types of pond liner.

- Over 30 pre-cut sizes available.
- 30 years guarantee
- Thickness 0.3mm
- Tearproof
- Black colour

PondXpert "Y" Distributors with Flow Control Taps

Super useful pieces of kit. These Y pieces allow users to direct their water flow to multiple devices (for instance a waterfall and 'spitter' pondside ornament). The flow taps enable the consumer to get the exact force of water they require.

Available in small, large and premium models to cover all situations.

Description	Hose Size
Small Y	20mm & 25mm (3/4" & 1").
Large Y	25 / 32 / 38 / 40mm (1" to 13/4").
Premium Y	25 / 32 / 38 / 40 mm (3/4" to 13/4").
	Premium Inlet accepts hose up to 50mm (2").

PVC Pond Hose

Features:

- Smooth bore-minimal flow restriction
- Will not kink or split
- Convenient 5m lengths will suit most ponds
